

At Nordic Naturals we believe that omega oils are essential to life. By correcting the global omega-3 deficiency, we give each generation what they need to grow healthy and strong. Through science and innovation, we are committed to delivering the world's safest, most effective omega oils.

ProDHA Eye® combines concentrated omega-3 fish oil with key nutrients that have been shown to protect the eyes and support healthy vision.\* The omega-3 DHA (docosahexaenoic acid) is more concentrated in eye tissue than in any other part of the body, and is vital to the structure and function of healthy eyes. Omega-3s help alleviate many common symptoms of eye discomfort such as dryness, pain, and redness.\* FloraGLO® Lutein with zeaxanthin has been added to further support the structures of the eye and provide protection against harmful ultraviolet blue light.\* ProDHA Eye combines these key eye nutrients in one convenient formula.

- Supports healthy tissue moisture and tear production
- Supports joint and heart health
- Provides natural pigment to ocular cells
- Added Zeaxanthin and FloraGLO® Lutein for ultimate eye protection

ProOmega® provides exceptionally high levels of the omega-3 fats EPA and DHA. It is ideal for people wanting high-intensity, therapeutic support in a smaller serving. Our most popular concentrate, ProOmega has been shown by original research to support healthy glucose levels, healthy lipid levels in professional athletes, bronchial health, and the body's ability to respond to stress in a healthy way. Double-strength EPA+DHA for increased omega-3 benefits, in fewer soft gels.

- Promotes healthy eye moisture and tear production
- Protects eyes from oxidative stress and damage
- Provides concentrated EPA and DHA for healthy ocular tissue
